### 1 Principles of Management and Leadership ................................................................................................................. 1

Elizabeth A. Wagar, Isam-eldin A. Eltoum, Michael B. Cohen

- History of Management and Management Theories, 1
- Functions of Management, 3
- The Primary Leadership in the Laboratory: The Pathologist, 4
- The Primary Planning Procedure: The Strategic Plan, 7
- Appendix 1-1. Leadership Competencies, 11
- Appendix 1-2. Motivation Strategies, 11
- Appendix 1-3. How to Make a Decision, 11
- Appendix 1-4. Performing a SWOT Analysis, 12

### 2 Competencies and Interfaces of the Involved Pathologist ............................................................................................... 13

Elizabeth A. Wagar, Isam-eldin A. Eltoum, Michael B. Cohen

- Competencies of the Involved Pathologist, 13
- Interfacing With Clinicians, 16
- Interfacing With the Medical Staff, 16
- Interfacing With the Hospital or System Administration, 18
- Interfacing With the Laboratory Staff, 19
- Interfacing With the Pathology Group, 22
- Interfaces Beyond the Hospital or System, 23
- Strategies for Improving Interfaces, 24
- Appendix 2-1. Options for Satisfying Pathologists’ General Competencies and for Ongoing and Focused Professional Practice Evaluation (OPPE and FPPE), 26
- Appendix 2-2. Model Privilege Delineation Form, 26
- Appendix 2-3. How to Conduct a Meeting, 27
- Appendix 2-4. How to Give a Talk, 28
- Appendix 2-5. Assembling a Medical Staff Bulletin, 29
- Appendix 2-6. Annual Report of a Pathology Department, 30
- Appendix 2-7. Pathologist Performance Evaluations, 30
- Appendix 2-8. Laboratory Specialty Societies, 31

### 3 Laboratory Operations .................................................................................................................................................... 33

Elizabeth A. Wagar

- History, 33
- Organization, 34
- Policies and Procedures: Describing the “Work” of Laboratory Operations, 40
- Tools: Organizational Charts, Policies, and Procedures, 40
- Test Development, 41
- Point-of-Care and Ancillary Testing, 42
- Signs and Symptoms of Poor Laboratory Operations, 43
Diagnosis and Treatment of Poor Laboratory Operations, 44
Other Systems for Improving Laboratory Operations, 44
Appendix 3-1. Standard Operating Procedure Format, 46

4 Personnel Management ........................................................................................................................................ 55
Elizabeth A. Wagar
- Human Resources, 55
- Rights and Responsibilities of Management, 55
- Government Regulations, 56
- Unions and Civil Service, 58
- The Job and the Job Description, 59
- Recruitment and Selection, 61
- Interviews, 62
- Compensation, 62
- Hiring and Orientation, 63
- Scheduling and Staffing, 63
- Performance Appraisal, Annual Review, and Competencies, 64
- Employee Retention, 65
- Counseling and Discipline, 65
- Termination, 66
- Personnel Files, 67
- The Position Justification, 67
- Business-Based Workforce Reductions, 68
- Managing the Difficult Conversation, 68
- Appendix 4-1. Employee Handbook Contents, 70
- Appendix 4-2. Interviewing Strategies, 71
- Appendix 4-3. Sample Questions for a Behavior-Based Interview, 71
- Appendix 4-4. Sample Performance Evaluation Template, 72

5 Laboratory Space Planning, Equipment, and Supplies ....................................................................................... 73
Sherry Polhill, Gene P. Siegal
- Introduction, 73
- Equipment Acquisition, 73
- Equipment Maintenance, 81
- Supply Management, 82
- Contract Services, 85
- Space Planning, Renovation, and Construction, 86

6 Management of Pathology Information Systems ................................................................................................ 93
James H. Harrison Jr.
- Definition of Pathology Informatics, 93
- Early Development and Growth of Laboratory Information Systems, 93
- Maturation and Adoption, 94
- Recent Developments and Challenges, 95
- Computer Basics, 96
- Data Representation, 97
- Image Compression, 97
- Data Standards, 98
- General Characteristics of Laboratory Information Systems, 98
- Database Applications, 99
- Computer Networking, 102
- System Interfaces and HL7, 103
- System and Data Security, 104
- Disaster Recovery, 107
- Systems and Personnel, 108
Contents

Communication, Handoffs, and Transitions, 162
Communication in Anatomic and Clinical Pathology Laboratories, 162
Improving Laboratory Patient Safety Through Technology, 163
Building High-Reliability Teams in the Laboratory, 165
What Constitutes Teamwork and How It Is Achieved, 166
Getting Your Hospital Board on Board, 166
Teaching Teamwork to the Next Generation, 167
Patient Safety Curriculum: New ACGME Pathology Milestones, 167
Implementation of NAS and CLER Site Visits, 167
Summary, 168

10 Financial Management of the Laboratory ................................................................. 173
   Elizabeth A. Wagar
      History, 173
      Responsibilities, 174
      Policies and Procedures, 174
      Outcomes and Metrics, 179
      Clinical Laboratory Finance Within the Health Care Finance System, 183
      Discussion and Controversies, 184
      Appendix 10-1. Business Plan Template for New Testing, 186
      Appendix 10-2. Typical Budget Calendar, 188

11 Financial Management of the Pathology Practice .................................................. 189
   Donald S. Karcher
      Introduction, 189
      A Brief Financial History of Pathology Practice in the United States, 189
      Pathology Practice Settings, 191
      Sources of Income, 191
      Financial Responsibilities, 195
      Planning and Budgeting, 196
      Billing and Collections, 198
      Insurance and Risk Management, 202
      Pension Fund Management, 205
      Accounting and Auditing, 206
      Contracting, 207
      Mergers, Acquisitions, and Laboratory Outsourcing, 210

12 The Pathology Position: Evaluating Different Practice Settings and Getting and Keeping a Job ................................................................. 213
   Donald S. Karcher, Nicole D. Riddle
      Where Do Pathologists Work?, 213
      What Will Be Expected?, 215
      Where to Find a Job, 215
      How to Evaluate the Position, 216
      Curriculum Vitae and Cover Letter, 217
      The Job Interview: How to Prepare, 218
      The Job Offer: How to Evaluate, 219
      The Contract: General Provisions, Assumptions, and Types, 219
      How to Keep the Job, 222
      Appendix 12-1. Template for a Curriculum Vitae, 224
      Appendix 12-2. Cover Letter Template, 224
      Appendix 12-3. Interview Questions, 225
      Appendix 12-4. Checklist for a Professional Services Contract, 226
      Appendix 12-5. Negotiation: A Very Brief Introduction, 227
