List of Figures

Before the Dissection

- 2-1 Instruments for Autopsy 9
- 2-2 Holding the Forceps and Scissors 10

The Complete Autopsy: Procedures With the Body Present

- 3-1 Primary Incision 18
- 3-2 Reflect Abdominal Flaps 19
- 3-3 Test for Pneumothorax 20
- 3-4 Cut the Ribs and Clavicle 20
- 3-5 Reflect the Chest Plate 21
- 3-6 Remove the Thymus 21
- 3-7 Open the Pericardium 22
- 3-8 Obtain Blood 22
- 3-9 Examine the Pancreas 23
- 3-10 Remove the Intestines 24
- 3-11 Open the Intestines 25
- 3-12 Free the Pelvic Organs 27
- 3-13 Remove the Organ Block 28
- 3-14 Remove the Neck Organs 29
- 3-15 Neck Organs 30
- 3-16 Tongue 30
- 3-17 Incise the Scalp 31
- 3-18 Remove the Skull Cap 31

- 3-19 Free the Brain 32
- 3-20 Remove the Brain 33
- 3-21 Dura 34
- 3-22 Pituitary 36
- 3-23 Expose the Spinal Cord 37
- 3-24 Remove the Spinal Cord 38
- 3-25 Sternoclavicular Joint 39
- 3-26 Vertebrae 40
- 3-27 Rib 40
- 3-28 Iliac Bone 41
- 3-29 Knee Incision 41
- 3-30 Knee 41

The Complete Autopsy: Dissecting the Organ Block

- 4-1 Thoracic Duct 46
- 4-2 Aorta 46
- 4-3 Detach the Aorta 46
- 4-4 Esophagus 47
- 4-5 Remove the Heart and Lung Block 47
- 4-6 Adrenals 48
- 4-7 Diaphragm 49
- 4-8 Remove the Kidney Block 49
- 4-9 Liver Block Vessels 50
- 4-10 Stomach and Biliary Tree 51

4-11	Ampulla of Vater	51
4-12	Liver, Pancreas, and Spleen	52
4-13	Inferior Vena Cava	53
4-14	Rectum	54
4-15	Bladder	54
4-16	Vagina, Uterus, Tubes, and Ovaries . . .	54
4-17	Prostate and Seminal Vesicles	55
4-18	Kidneys	55
4-19	Remove the Heart	57
4-20	Lungs	58
4-21	Lung Distention	59
4-22	Heart	60
4-23	Coronary Artery Injection	62
4-24	Cardiac Conduction System	64

See also Autopsy Worksheets (Appendix A)
and Autopsy Diagrams (Appendix B).

After the Dissection

5-1	Autopsy Face Sheet	70
5-2	Standard Letter	74
5-3	Suggested Autopsy Material Retention . .	75

Autopsy Techniques for Special Situations

6-1	Incisions	77
6-2	Perineum	78
6-3	Brain	80
6-4	Chest Incision	85
6-5	Abdominal Incision	85
