(A Closer Look At...sections in red)

Preface	viii
Acknowledgements	ix
CAP Proficiency Testing in Body Fluids: An Overview	x
How to Use This Book	xi
Introduction and Technical Considerations	2
History of Cytology with Special Reference to the Development of Wright-Giemsa Staining	4
Technical Considerations	8
Cytocentrifuge Preparation	12
Cytocentrifuge Artifacts	14
Crystal Analysis with Polarizing Microscope and Color Compensator	18
Pap vs. Wright-Giemsa Stains	24
A Multidisciplinary Approach to Body Fluids	30
Cerebrospinal Fluid	38
Anatomy and Formation	40
Collection and Preparation	44
Traumatic Tap vs. Subarachnoid Hemorrhage	47
Interpretation: Macroscopic Findings	50
Interpretation: Microscopic Findings	52
Cells in the CSF	54
Pleural, Peritoneal, and Pericardial Fluids	62
Anatomy	64
Formation	66
Pleural Effusion Mechanisms	68
Collection and Preparation: Pleural Fluid	70
Collection and Preparation: Peritoneal Fluid	72
Collection and Preparation: Pericardial Fluid	74
Interpretation: Macroscopic Findings and Laboratory Tests	76
Transudates vs. Exudates	78
Interpretation: Microscopic Findings	80
Diagnostic Peritoneal Lavage	81
Continuous Ambulatory Peritoneal Dialysis	84
Synovial Fluid	86
Anatomy and Composition	88
Collection	91
Interpretation: Macroscopic and Microscopic Findings	92
Synovial Fluid Crystals	94
Erythroid Series	96
Erythrocyte, Mature	98
Erythrocyte, Nucleated	100

Lymphoid Series	102
Lymphocyte.....	104
Lymphocyte, Reactive.....	108
How Reactive Lymphocytes Form.....	110
Lymphoma Cell.....	112
Lymphoma Markers.....	116
Plasma Cell.....	118
Plasma Cell, Abnormal.....	122
Plasma Cell Disorders.....	124
Myeloid Series	128
Basophil, Mast Cell.....	130
Eosinophil, Any Stage.....	132
Neutrophil, Immature (Meta-, Myelo- or Promyelocyte).....	134
Neutrophil, Segmented or Band.....	136
Mononuclear-Phagocytic Series	140
Monocyte/Macrophage.....	142
Monocytes and Macrophages.....	146
Macrophage Containing Erythrocyte(s) (Erythrophage).....	148
Macrophage Containing Lipid Vacuoles/Droplets (Lipophage).....	152
Macrophage Containing Neutrophil(s) (Neutrophage).....	154
Reiter Cells in Synovial Fluid.....	157
Macrophage Containing Hemosiderin (Siderophage).....	158
Neutrophil/Macrophage Containing Crystal.....	160
Neutrophil/Macrophage with Phagocytized Bacteria.....	162
Neutrophil/Macrophage with Phagocytized Fungi.....	166
Intracellular Fungi vs. DNA.....	168
Inclusions in Macrophages.....	170
Lining Cells	172
Bronchial Lining Cell.....	174
Ciliocytophthoria.....	176
Bronchoalveolar Lavage.....	178
Endothelial Cell.....	184
Mesothelial Cell.....	186
Life Cycle of Mesothelial Cells.....	190
Synoviocyte (Synovial Lining Cell).....	200
Ventricular Lining Cell (Ependymal/Choroid Plexus Cell).....	202
CSF Lining Cells.....	204
Miscellaneous Cells	208
Blast Cell.....	210
Chondrocyte (Cartilage Cell).....	214
Degenerating Cell.....	216
LE (Lupus Erythematosus) Cell.....	218
Malignant Cell (Non-Hematopoietic).....	220
Criteria for Identification of Malignant Cells In W-G Stained Cytocentrifuge Preparations.....	227
Neural Tissue/Neuron.....	256
Brain Tissue in CSF.....	258
Squamous Epithelial Cell.....	260

Crystals	262
Calcium Pyrophosphate Dihydrate (CPPD) Crystal.....	264
Cholesterol Crystal.....	266
Chylous vs. Pseudochylous Effusions.....	268
Hematin/Hematoidin Crystal.....	270
Ingestion and Digestion of RBCs.....	272
Monosodium Urate (MSU) Crystal.....	276
Needle-Shaped Crystals.....	278
Crystal-Induced Synovitis.....	280
Microorganisms	284
Bacteria, Extracellular.....	286
Extracellular Bacteria and Stain Precipitate.....	289
Ehrlichia.....	290
Ehrlichia and Tick-borne Diseases.....	292
Parasite (example, <i>Naegleria</i>).....	294
CNS Amoebiasis.....	296
Yeast/Fungi, Extracellular.....	300
Miscellaneous Findings	304
Fat Droplets or Globules, Free.....	306
Mitotic Figure.....	308
Stain Precipitate.....	310
Starch Granule.....	312
Appendix	314
Appendix A: How to Review Proficiency Testing Challenges.....	316
Appendix B: Selected References.....	318
Appendix C: Body Fluid Master List (1984-2005).....	325
Appendix D: Master List Identifications: Refereed and Non-Refereed Examples.....	326
Appendix E: Body Fluid Proficiency Testing Challenges Listed by Master List Identification (1983-2006).....	330
Appendix F: Body Fluid Proficiency Testing Challenges Listed by Year (1983-2006).....	334
Index	347

Illustrations

“A Closer Look At...” Discussions (alphabetical)

Brain Tissue in CSF	258
Bronchoalveolar Lavage	178
Cells in the CSF	54
Chylous vs. Pseudochylous Effusions	268
Ciliocytophthoria	176
CNS Amoebiasis	296
Continuous Ambulatory Peritoneal Dialysis	84
Criteria for Identification of Malignant Cells In W-G Stained Cytocentrifuge Preparations	227
Crystal-Induced Synovitis	280
CSF Lining Cells	204
Diagnostic Peritoneal Lavage	81
Ehrlichia and Tick-borne Diseases	292
How Reactive Lymphocytes Form	110
Inclusions in Macrophages	170
Ingestion and Digestion of RBCs	272
Intracellular Fungi vs. DNA	168
Life Cycle of Mesothelial Cells	190
Lymphoma Markers	116
Monocytes and Macrophages	146
Needle-Shaped Crystals	278
Plasma Cell Disorders	124
Pleural Effusion Mechanisms	68
Transudates vs. Exudates	78
Traumatic Tap vs. Subarachnoid Hemorrhage	47

Other Pictorial Discussions (in order of appearance)

Body Fluid Cell Counts	10
Cytocentrifuge Principles	13
Cytocentrifuge Nuclear and Cytoplasmic Artifacts	14-17
Polarization With and Without Crystal	20-21
How Light is Refracted by a Birefringent Crystal	22
How the Color Compensator Works	23
Air-Dried vs. Wet-Fixed Smears	26-27
CSF Flow	42
Arachnoid Granulations	43
Lumbar Puncture Technique	44-45
CSF Macroscopic Findings	51
Embryologic Development of Serosal Surfaces	64
Pleural Fluid Formation	67
Thoracentesis	71
Paracentesis	72-73
Pericardiocentesis	74-75
Gross Examination of Serous Fluids	76
Synovium	90
Synovial Fluid Collection	91
Synovial Fluid Crystals	94-95
Reiter Cells in Synovial Fluid	157
LE Cell Formation	219
Extracellular Bacteria and Stain Precipitate	289
Cryptococcus	303
