

Contents

Basic Ultrasound Principles and Terminology

Basic Ultrasound Principles.....	1
Ultrasound System	2
Linear Transducer for Superficial Images and Ultrasound-Guided FNA	3
Scanning Planes	4
Overall Gain	5
Time Gain Compensation (TGC).....	6
Focal Zone	7
Frequency	8
Depth of View of the Image.....	9
Color-Flow Doppler and Power Doppler.....	10
Axial Resolution and Lateral Resolution.....	11
Contrast Resolution.....	12

Ultrasound Nodule Characteristics

Nodule Characteristics	13
Size	14
Shape.....	15
Shape: Taller-Than-Wide.....	16
Composition: Solid	17
Composition: Cystic.....	18
Composition: Cystic, Complex	19
Composition: Spongiform	20
Margins: Smooth	21
Margins: Smooth With Halo.....	22
Margins: Irregular	23

Margins: Vague	24
Echogenicity: Anechoic	25
Echogenicity: Hypoechoic	26
Echogenicity: Isoechoic.....	27
Echogenicity: Hyperechoic.....	28
Internal Echo Pattern: Homogeneous	29
Internal Echo Pattern: Heterogeneous	30
Calcification: Rim or “Egg Shell”.....	31
Calcification: Macrocalcifications.....	32
Calcification: Microcalcifications.....	33
Color-Flow Doppler and Power Doppler.....	34
Vascularity: Avascular	35
Vascularity: Peripheral.....	36
Vascularity: Intranodular.....	37
Vascularity: Peripheral and Intranodular	38

Ultrasound Image Artifacts

Posterior Acoustic Enhancement	39
Posterior Acoustic Shadowing.....	40
Reverberation Artifact.....	41
Colloid “Comet Tail” Artifact	42
Edge Shadow Artifact.....	43
Mirror Image Artifact.....	44
Refraction Artifact.....	45
Speed of Sound (Bayonet) Artifact	46

Thyroid Gland

Neck Anatomy, Anterior View	47
Neck Anatomy, Transverse View.....	48

Normal Thyroid Gland Echotexture and Vascularity.....	49
Status Post Hemithyroidectomy	50
Benign Follicular Nodule	51-52
Benign Complex Nodule.....	53
Benign Complex Cystic Lesion.....	54
Cyst Fluid Drainage.....	55
Chronic Lymphocytic Thyroiditis.....	56-62
Subacute (DeQuervain) Thyroiditis	63
Ectopic Thyroid Tissue	64
Normal Esophagus.....	65
Esophageal Diverticulum.....	66
Papillary Carcinoma	67-69
Papillary Carcinoma Arising in Chronic Lymphocytic Thyroiditis.....	70
Papillary Carcinoma, Recurrent	71
Papillary Carcinoma, Metastatic to Neck Lymph Node	72-74
Follicular Neoplasm.....	75-77
Follicular Neoplasm, Hürthle Cell Type	78-79
Medullary Carcinoma	80-81
Non-Hodgkin Lymphoma	82-83
Metastatic Renal Cell Carcinoma	84-85
Thyroglobulin Needle Rinse Washout	86

Parathyroid Gland

Neck Anatomy, Posterior View	87
Adenoma.....	88-91
Cyst	92
Parathyroid Hormone Needle Rinse Washout	93

Lymph Node

Lymph Node: Benign and Malignant Features	95
Cervical Lymph Node Anatomic Locations	96
Benign	97-98
Reactive	99-102
Granulomatous Lymphadenitis	103-104
Cat Scratch Disease	105
Non-Hodgkin Lymphoma	106-107
Hodgkin Lymphoma	108-109
Metastatic Squamous Cell Carcinoma	110-111
Metastatic Malignancy	112

Salivary Gland

Salivary Gland Anatomy	113
Normal Salivary Gland Echotexture	114
Intraparotid Reactive Lymph Node	115-117
Cyst	118
Cyst Drainage	119
Abscess	120
Sialolith With Dilated Duct	121
Chronic Sialadenitis	122
Pleomorphic Adenoma	123-124
Warthin Tumor	125-127
Benign Lymphoepithelial Lesion	128
Sjögren Syndrome	129
Sarcoidosis	130
Rosai-Dorfman Disease (Sinus Histiocytosis With Massive Lymphadenopathy)	131
Acinic Cell Carcinoma	132

Polymorphous Low-Grade Adenocarcinoma.....	133
Adenoid Cystic Carcinoma.....	134
Mucoepidermoid Carcinoma.....	135-136
Adenocarcinoma.....	137
Non-Hodgkin Lymphoma.....	138-140

Soft Tissue

Epidermal Inclusion Cyst.....	141-142
Thyroglossal Duct Cyst.....	143-144
Cyst Drainage.....	145
Branchial Cleft Cyst.....	146
Benign Dermoid Cyst.....	147
Carotid Body Tumor.....	148
Lipoma.....	149-150
Fat Necrosis.....	151
Foreign Body Giant Cell Reaction.....	152
Pilomatrixoma and Hemangioma.....	153
Ganglion Cyst and Baker Cyst.....	154
Calcinosis Cutis and Plantar Fibromatosis.....	155
Schwannoma.....	156
Nodular Fasciitis and Proliferative Myositis.....	157
Myxoma.....	158
Desmoid Fibromatosis.....	159
Myxopapillary Ependymoma.....	160
Abdominal Wall Hernia.....	161
Periosteal Chondrosarcoma.....	162
Leiomyosarcoma and Ewing Sarcoma.....	163
Metastatic Colonic Adenocarcinoma and Melanoma.....	164

Breast

Normal Breast Tissue.....	165-166
Fatty Breast Tissue.....	167
Ribs.....	168
Cysts.....	169-171
Complex Cysts.....	172
Subareolar Abscess and Ruptured Silicone Implant.....	173
Cancer Mimicking a Complex Cyst.....	174
Fibroadenoma.....	175
Fat Necrosis.....	176
Trauma Reaction Mimicking Carcinoma.....	177
Gynecomastia.....	178
Nipple Shadow.....	179
Carcinoma.....	180-185
Carcinoma With Axillary Metastasis.....	186
Axillary Lymph Nodes.....	187-188
Male Breast Carcinoma.....	189
Index.....	190
