Preface	vii
Acknowledgements	viii

Section I: Introduction

Introduction: Methods used in the evaluation of hemoglobinopathies	3
--	---

Section II: Case Studies

Case 1: Normal adult	11
Case 2: Iron deficiency	15
A Closer Look At...Alpha-Thalassemia	18
Case 3: β -Thalassemia trait	21
A Closer Look At...Beta-Thalassemia	24
Case 4: HPFH trait	29
Case 5: $\delta\beta$ -Thalassemia trait	33
Case 6: Homozygous β^+ -thalassemia	37
Case 7: Hb S trait	41
Case 8: Hb C trait.....	45
Case 9: Hb E trait	49
Case 10: Hb Lepore trait	53
Case 11: Hb D-Los Angeles trait	57
Case 12: Hb O-Arab trait	61
Case 13: Hb G-Philadelphia trait.....	65
Case 14: Homozygous Hb E	69
A Closer Look At...Hb E-Associated Disorders	72
Case 15: Homozygous Hb C	75
Case 16: Homozygous Hb S	79
Case 17: Hb S/C disease	85
Case 18: Hb S/ β^+ -thalassemia	89
Case 19: Hb S/G-Philadelphia.....	93
Case 20: Hb S/Hb Korle-Bu	97
Case 21: Hb S/Hb E.....	101
Case 22: Hb S/HPFH	105
Case 23: HPFH trait/ β -Thalassemia trait and HPFH trait/Hb C trait	109

Case 24: Hb G-Coushatta trait.....	113
Case 25: Hb J-Baltimore trait	119
Case 26: Hb I trait	121
Case 27: Hb S/Hb N-Baltimore	127
Case 28: Hb S/Hb Hope	131
Case 29: Hb C/ β^+ -thalassemia	135
Case 30: Hb C/ β^0 -thalassemia	139
Case 31: Homozygous Hb A ₂ '	143
Case 32 β -Thalassemia trait with Hb A ₂ ' trait	147
Case 33 Hb S trait/Hb A ₂ ' trait/ α -thalassemia-2 trait	151
Case 34: Hb E trait/ α -thalassemia trait.....	155
Case 35: Hb Q-Thailand trait/ α -thalassemia-2 trait	159
Case 36: Hb Hasharon trait	161
Case 37: Hb Köln trait	167
Case 38: Hb Zürich trait	173
Case 39: Hb Malmö trait	177
Case 40: Hb Andrew-Minneapolis trait	183
Case 41: Hb British Columbia trait	187
Case 42: Hb Kempsey trait	191
Case 43: Hb S/C disease after transfusion	195
Case 44: Hb M-Saskatoon trait	199
Case 45: Hb Russ/Hb Raleigh	207

Section III: Dry Lab Challenges

DL-1:	Hb H disease	215
DL-2:	Hb G-Philadelphia trait/ α -thalassemia-2 trait	219
DL-3:	Hb F-Texas-I trait	223
DL-4:	Hb AE-Bart's disease	229
DL-5:	Hb S/ β^0 -thalassemia in a neonate	233
DL-6:	Hb S/C/G-Philadelphia in a neonate	237
DL-7:	Hb E trait/ α -thalassemia trait in a neonate	241
DL-8:	Hb S/O-Arab in a neonate	245
DL-9:	Hb S/C-Harlem	249
DL-10:	Hb Q-Thailand/Hb H disease	253
DL-11:	Homozygous Hb S with high Hb F levels	257
DL-12:	Hb H/Hb Constant Spring	261
DL-13:	Homozygous Hb S/Hb G-Philadelphia	265
DL-14:	Laboratory artifacts	269
DL-15:	Hb S/Hb J-Baltimore	273
DL-16:	Hb C/G-Philadelphia	277
DL-17:	Hb Bart's hydrops fetalis	281
DL-18:	Hb E/ β^0 -thalassemia	285
DL-19:	β -Thalassemia trait	289
DL-20:	Hb S/Hb A ₂ '	293
DL-21:	Hb S/Hb K-Woolwich	297
DL-22:	Hb Q-Thailand/Hb E	301
DL-23:	Homozygous β^0 -thalassemia and Homozygous HPFH	305
DL-24:	Hb S/D-Los Angeles	309

Section IV: Appendix

A:	General references pertaining to hemoglobinopathies and thalassemias	314
B:	Listing of cases used in the CAP Hemoglobinopathy Survey by year	315
	Index	320
